Multi-mode Wireless Optical Combo Set

8000GT

Stylish, compact, and timeless: This set is a delight to behold with its minimalist design, which makes for a real eye-catcher on any desktop. 8000GT transmits using Rapoo's latest multi-mode wireless connection – via a reliable 2.4 GHz wireless transmission, Bluetooth 4.0 or 5.0 – enabling you to connect simultaneously to multiple devices and

switch (pair automatically) among them. The mouse in this set boasts a high-performance 2400 DPI tracking engine for extra smooth and accurate pointer control, while its ergonomic design makes it ideal for use both in the office and at home.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 4.0, 5.0 and 2.4 GHz ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your keyboard regardless of USB port shortage or the loss of receiver.

► Instant switch among multiple connected devices in one click (Automatic pairing)

Connect to all your devices: 8000GT automatically pairs the working device. It simultaneously connects to multiple devices, and easily switches among them in a click of a button. It simplifies activities across devices and meets multi-tasking requirements.

► Adjustable 2400 DPI HD sensor

As sensitive as you want: The mouse's optical HD sensor resolution can be toggled between 800 DPI (for maximum precision) and 2400 DPI (for maximum speed) at the press of a button.

► Up to 12 months battery life battery

Low energy consumption: Rapoo's energy-saving technologies, combined with the on/off switch, enable you to use the set continuously for up to 12 months.

Specifications
